**B-Sides: Phase 7 #012-#016** Alec Longstreth 2013-04 This collection reprints five issues of Alec Longstreth's minicomic Phase 7 in their entirety: #012 is a stick figure science fiction story about a college and the barcode system it uses to keep track of its students. #013 reprints a comics essay in which the idea of everyday art is explored throughout art history. #014 is a facsimile of the sketchbook that Longstreth took on his first trip to Europe, for the 2009 Angoulême comics festival in France. It includes an account of his trip and many observational drawings created while traveling. #015 and #016 are comprised of selections from Longstreth's many sketchbooks, starting in 1995 and working up to 2008. Various quick drawings and loose diary comics reveal the cartoonist's struggles with relationships, employment, education and his future. All of these issues were released while Longstreth was focused on drawing his graphic novel Basewood, hence the title "B-Sides."

**Charged-Particle Reaction List 1948-1971** F McGowan 1973 Charged-Particle Reaction List 1948-1971 is a guide to experiments on charged-particle-induced reactions that have been reported in journal literature during the period 1948 to June 1971. This compendium consists of the material from four Reaction Lists which have already appeared in Nuclear Data Tables. Each published article is listed under the target nuclei in the nuclear reactions which it treats. Reactions are denoted by A(a,b)B, where A and B are the target and residual nucleus, respectively; a is the bombarding charged particle and b is the outgoing product particle or particles. The guide also includes a brief information after the reaction designation, namely, the energy E of the bombarding projectile in MeV, a short statement of the type of data that is found in the paper, and a bibliographic information on the paper itself. A symbol THY in the extreme right-hand column denotes the theoretical papers concerned with analysis of nuclear reaction data. For papers dealing with experimental data on energy spectra, the angle of observation of the emerging reaction products, the accelerator, as well as the detector used are given for many entries under the column heading "Quantity Measured." The guide will prove immensely useful for theoretical physicists, nuclear physicists, and molecular physicists.

**Indrajal Comics 016 - 030 The Phantom** Lee Falk 2014-08-28 Indrajal Comics began publishing self-titled monthly issues in March 1964. Each of the first 10 issues had 16 pages of Phantom comics. The stories had to be edited to fit this short format. The remaining 12 pages were dedicated to other content, similar to Gold Key's style.

In the next 19 issues it became 20-24 pages. As the series continued, different characters would share the spotlight. Characters such as Flash Gordon, Mandrake the

Magician, Bahadur, Kerry Drake, Rip Kirby, Garth, Mike Nomad and Buz Sawyer appeared - as well as Disney characters Robin Hood and Mickey Mouse along with Goofy, but the majority of the series spotlighted The Phantom. So much so that the series is often erroneously referred to as "The Phantom" instead of the correct "Indrajal Comics". In due course the publication became fortnightly and then weekly by 1981. The numbering of books which was simply sequential in the beginning then changed to have the typical volume and a number. Indrajal Comics #444 was labeled as Vol.20 and No.1. The front cover design changed with distinct banner containing the title "Indrajal Comics" with a small circle showing the face of the main character. A total of 803 Indrajal Comics were published, excluding #123 and #124 which were not printed due to industrial strike action. More than half of these issues contained Phantom stories. The publishing stopped in 1990. The cover artwork for the first 50 or so issues of Indrajal Comics was done by B.Govind, with the back cover featuring a pin-up poster. His artwork became very popular and even said to have matched the artwork on the covers of international phantom publications such as Gold key or Frew. To avoid confusion among Indian readers, there were some minor changes done to the name of the Phantom's location and some characters in stories published in Indrajal Comics. The term " Bengali" or "Bengalla" or "Bengal" was changed to "Denkali" and in some issues "Dangalla" as well. This was since there is a state called "Bengal" in India and this may lead the readers to wonder about the "Pygmy" people that don't exist in Bengal. The name of the "Singh Brotherhood" was changed to "Singa Brotherhood" and the killer of the father of the current (21st) Phantom was changed from "Rama" to "Ramalu" although the latter too is one of the common names in India. Apart from English, Indrajal Comics published the stories in at least a dozen other Indian languages including Hindi, Bengali, Tamil and Kannada.
